

Declaration to the food grade of the material separating belt

Transportbänder · Conveyor belts · Bandes transporteuses

Compiled by:	Approved by Management:	Version:	Date:	Replaced:
B. Kallsen	W. Polnikow	02	26.10.2009	01

The material was checked on the basis of directive 82/711/EWG and amendment 97/48/EG for the repeated contact with cookies (dry bakery products) and chocolate for a period of less than 5 minutes at a temperature of 30 °C or less.

As a result of the conducted investigations the critical migration value of the regulation of food contact material and consumer products of 10 mg/dm² or 60 mg/kg respectively was complied with.

Märtens Transportbänder GmbH & Co. KG

Wolfgang Polnikow
Managing Director

These statements comply with the status quo of our conclusions. We hand them over without binding and cannot assume liability for the accuracy. The statements are to inform and to give advice, but they don't constitute any guarantee. The customer is not exempt from a careful verification of the functions and applications by qualified personnel. This applies also regarding the protection of any property rights of a third party. Modifications within the scope of technical progress and operative developments are reserved. With these statements earlier statements become invalid.
